

I benefit from listening to XM Satellite Radio and its traffic and weather channels. As with Cable Television, Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and, because of freedom of speech on satellite; it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. Dictation of the content of AM and FM airwaves is warranted, as they are the property of the United States people. Please reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I enjoy and deserve.
